

# SWEDEN 3 DAYS

## HIGHWHEEL RACE

July 2-4, 2021 - Skåne (South Sweden)

For the first time in modern days there will be held a highwheel bicycle race in Sweden. SWEDEN 3 DAYS consists of four stages which all of them also acts as individual races. Riders from all over Europe will come and battle on their giant bikes.

**PLEASE VISIT: [www.sweden3days.se](http://www.sweden3days.se)**

The iconic bicycle, the "penny farthing", has a big front wheel and a very small rear wheel. The pedals are fixed to the front hub and when speeding up the cadence get extreme. The tyres are solid and the rider feels all bumps of the road. Brakes are not allowed.

These days will be something very special indeed. The race was planned for June last year and we were expecting big crowds. Now (corona/post corona) we are all facing a new situation. But we are determined to race (with spectators or with limited number of spectators). We think this is to good to cancell also this year. In the summer of 2021 we need all positive experiences we can get.

We now invite the media. Sweden can be off and far away for many but we think it will be worth to come. We will also try (as good as we can) to help you getting the most out of a visit to Sweden as possible. What we are thinking of: logistics, photos, accomodation, planning, etc.

To help us we would appreciate if you contact us and tell what you need from us to come. And then we can take it from there.

Please write to: [info@sweden3days.se](mailto:info@sweden3days.se)

best regards / P-O Kippel
